

How To Order

We will work with you to make it as easy as possible to get just the right look and balance to your custom moon calendar or imprint. The layout guides on the other side of this brochure illustrate the areas available for imprint or customization. Experiment with your art and make a sketch if you want. If you have a logo or special typeface to use, send the best quality of these elements to us. We actually prefer to do the sizing and layout. A full size version of the imprint region or customized calendar will be sent to you for final approval prior to production. As always, call us to get answers to your questions.
